

## XK9192-DS11 indicator

- Dot matrix LCD display screen
- real time operating system, with multi-task processing functions, data processing quick
- record 10000 group weighing data. Weighing data includes serial No., vehicle No., goods, gross weight, tare weight, net weight, date of entry, time of entry, ex-factory date, ex-factory time, operator, company, remarks
- different connecting port:RS-232C/RS-485/1pc of 20mA current loop, Centronics parallel printing interface, serial printing interface
- use two chips to save parameters. A manual input interface. No need to calibrate when change indicator.
- Multiple operator account can be set.

## Technical parameters

Digital load cell interface: RS485

Qty. of digital load cell: ≤24

Power supply:DC12V

Working humidity: 80%RH

Max. distance of digital load cell: 1000m

Digital load cell power supply:DC12V or DC8V,500MA

Working temperature:-10℃ to +40℃

Power: around 30W
